# "Safe Harbor" Statement under the Private Securities Litigation Reform Act of 1995:

This supplemental disclosure package contains forward-looking statements within the meaning of federal securities laws concerning our goals, beliefs, strategies, future operating results and underlying assumptions and other statements that do not relate to historical matters. Examples of these statements include, but are not limited to, statements regarding our full year 2022 outlook and other targets, foreign currency exchange rates and our expectations regarding the leasing demand for communications real estate. Actual results may differ materially from those indicated by these forward-looking statements as a result of various important factors, including those provided in Item 1A of our Form 10-K for the year ended December 31, 2021, under the caption "Risk Factors" and other filings we make with the Securities and Exchange Commission. We undertake no obligation to update the information contained in this supplemental disclosure package to reflect subsequently occurring events or circumstances. Definitions and reconciliations are provided in this supplemental disclosure package.

#### Notes:

(1) Quarter end closing market value of common stock is based on quarter end shares of common stock outstanding multiplied by the quarter end closing share price as reported by Bloomberg.

Credit Ratings		
Standard & Poor's: Corporate Credit Rating	BBB-	(Stable Outlook)
Fitch: Issuer Default Rating	BBB+	(Negative Watch)
Moody's: Issuer Rating	Baa3	(Stable Outlook)

Note: These credit ratings may not reflect the potential risks relating to the structure or trading of the Company's securities and are provided solely for informational purposes. Credit ratings are not recommendations to buy, sell or hold any security, and may be revised or withdrawn at any time by the issuing organization in its sole discretion. The Company does not undertake any obligation to maintain the ratings or to advise of any change in the ratings. Each agency's rating should be evaluated independently of any other agency's rating. An explanation of the significances of the ratings can be obtained from each of the ratings agencies.

#### **DIVIDEND POLICY**

As a real estate investment trust for U.S. federal income tax purposes ("REIT"), we must annually distribute to our stockholders an amount equal to at least 90% of our REIT taxable income (determined before the deduction for distributed earnings and excluding any capital gain). Generally, we have distributed, and expect to continue to distribute, all or substantially all of our REIT taxable income after taking into consideration our utilization of netoperating losses ("NOLs"). We have distributed an aggregate of approximately \$13.0 billion(1) to our common stockholders, including the dividend paid on July 8, 2022. These distributions are primarily taxed as ordinary income that may be treated as qualified REIT dividends under Section 199A of the Internal Revenue Code of 1986, as amended, for taxable years ending before 2026.

The amount, timing and frequency of distributions will be at the sole discretion of our Board of Directors and will depend on various factors, many of which are beyond our control, including: our financial condition and operating cash flows; the amount of the distributions required to maintain our qualification for taxation as a REIT and reduce any income and excise taxes that we otherwise would be required to pay; limitations on distributions in our existing and future debt and equity instruments; our ability to utilize NOLs to offset our distribution requirements; limitations on our ability to fund distributions using cash generated through our taxable REIT subsidiaries; and other factors that our Board of Directors may deem relevant.

We anticipate that distributions will generally be paid from cash from operations after debt service requirements and non-discretionary capital expenditures. For information regarding risk factors that could materially adversely affect our ability to fund our distributions and our actual results of operations, we refer you to the information provided in Item 1A of our Form 10K for the year ended December 31, 2021 under the caption "Risk Factors."

- (1) Excludes cumulative total of \$40.5 million of distributions paid upon the vesting of restricted stock units.
- (2) Paid on July 8, 2022, to common stockholders of record at the close of business on June 17, 2022.
- (3) Special distribution paid in Q4 2011 prior to our conversion to a REIT.

# **COMPANY & PORTFOLIO OVERVIEW**

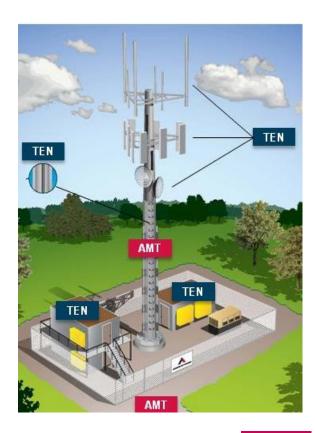

# **COMPANY PROFILE**

American Tower Corporation owns and operates a portfolio of approximately 222,000 communications sites, which we lease to wireless service providers, broadcasters and other communication service providers. As of June 30, 2022, our portfolio included more than 43,000 properties in the United States & Canada and nearly 179,000 properties in our international markets. Nearly 98% of our total revenue for the three months ended June 30, 2022 was generated from leasing these properties, as well as fiber, a highly interconnected footprint of U.S. data center facilities and other urban telecommunications assets, to our customers.

As illustrated to the right, our tenants typically own, operate and maintain their antenna, backhaul and base station equipment on our communications sites, while we provide the real estate, including the tower structure, to support them. For additional information, please visit our website at <a href="https://www.americantower.com">www.americantower.com</a>.

Historically, our communications site business has generated consistent incremental growth in revenue and cash flows due to the following characteristics:

- Long-term tenant leases with contractual rent escalations. In general, our tenant leases for our communications sites with wireless carriers have an initial non-cancellable term of five to ten years with multiple renewal terms. Most of our tenant leases have provisions that periodically increase the rent due under the lease, typically annually, based on a fixed escalation percentage (averaging approximately 3% in the United States) or an inflation index in our international markets, or a combination of both.
- High lease renewal rates. Our tenants tend to renew their leases because suitable alternative sites may not exist or be available. In addition, repositioning a site in a tenant's network may be expensive and may affect its network quality.
- High operating margins. The incremental operating costs associated with adding tenants to one of our properties are relatively minimal. Therefore, as additional tenants are added, the substantial majority of incremental revenue flows through to Operating Profit.
- **Low maintenance capital expenditures.** On average, we require relatively low amounts of annual capital expenditures to maintain our communications properties.
- Growth opportunities. Our portfolio of communications sites provides us with organic growth potential because we have the capacity to add new tenants and new equipment for existing tenants on our sites.

# **Operated by American Tower**

AMT

- >Tower structure constructed of galvanized steel with the capacity for multiple tenants
- >Land parcel owned or operated pursuant to long-term leases
- >Back-up power generators and batteries to support consistent power availability

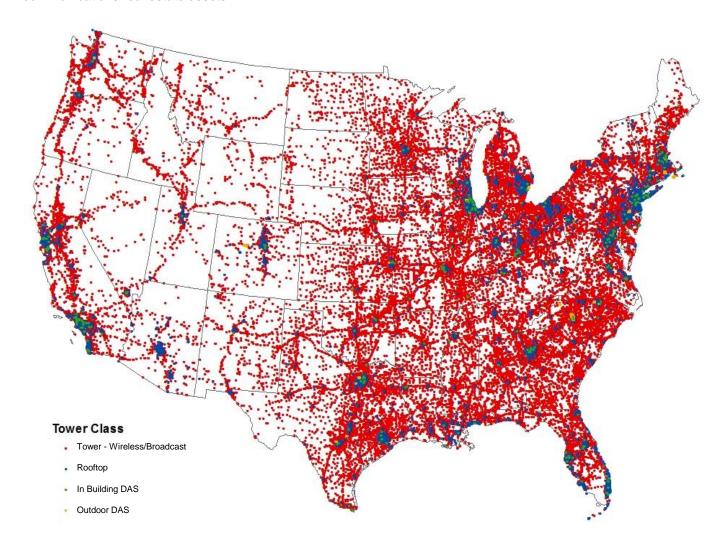

# **Operated by Tenant**

TEN

- >Antenna equipment, including microwave equipment
- >Tenant shelters containing base-station equipment and HVAC, which tenants own, operate and maintain
- >Coaxial cable

# **U.S. PORTFOLIO**

- ✓ Our U.S. Portfolio of more than 43,000 sites includes wireless communications towers and distributed antenna system ("DAS") networks
- Our top U.S. tenants include: T-Mobile, AT&T and Verizon
- ✓ We also have a portfolio of property interests under third-party communications sites, data center facilities and other communications real estate assets

<sup>(1)</sup> Reflects the Company's Asia-Pacific, Africa, Europe and Latin America segments.

<sup>(2)</sup> In many international markets, we have non-tower, non-DAS communications infrastructure assets which are excluded from site counts.

<sup>(3)</sup> Includes in-building and outdoor DAS networks.

<sup>(4)</sup> Represents top 10 international tenants for the quarter ended June 30, 2022.

<sup>(5)</sup> In Australia, the Company controls land under carrier or other third-party communications sites, which provides recurring cash flow through leasing arrangements.

<sup>(1)</sup> Excludes over 1,700 in-building and outdoor DAS networks, data centers, as well as fiber and fiber-related assets and other urban telecommunications assets in select markets.

<sup>(2)</sup> Percentages may not sum to 100% due to rounding.

<sup>(3)</sup> Reflects site decommissioning that has been driven by the carrier consolidation process in India.

# TENANT AND PROPERTY INTEREST OVERVIEW(1)

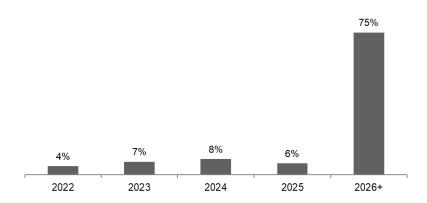

# **U.S. & Canada Property Interest Highlights**

- Over 35% of land is owned or operated pursuant to a finance lease or perpetual easement
- > Average remaining term of over 30 years for leased land
- > Lease term extensions are typically approximately 20 years
- Over 90% of ground leases are held by landlords who own a single land parcel

- (1) Data for the quarter ended June 30, 2022.
- (2) Percentages may not sum to 100% due to rounding. 2022 includes 2021 carryover leases in the renewal schedules.
- (3) Named carrier percentages reflect only U.S. & Canada revenue. Revenue derived from international markets is included in international percentage.
- (4) Other U.S. & Canada includes additional voice/data providers, broadcast companies, government agencies, local municipalities, etc.
- (5) Reflects effective term commitments.

<sup>(1)</sup> Nareit stands for National Association of Real Estate Investment Trusts, while FFO stands for Funds From Operations.

<sup>(2)</sup> In 2015, the Company incurred charges in connection with certain tax elections wherein MIP Tower Holdings LLC, parent company to GTP, would no longer operate as a separate REIT for federal and state income tax purposes. The Company finalized a settlement related to this tax election in the six month period ended June 30, 2022. The Company believes that these related transactions are nonrecurring, and does not believe it is an indication of its operating performance.

Accordingly, the Company believes it is more meaningful to present Consolidated AFFO excluding these amounts.

<sup>(3)</sup> Primarily includes unrealized loss (gain) on foreign currency exchange rate fluctuations.

<sup>(4)</sup> Primarily includes acquisition-related costs, integration costs, losses from sale of assets and impairment charges.

<sup>(5)</sup> Includes adjustments for the impact on both Nareit FFO attributable to American Tower Corporation common stockholders as well as the other line items included in the calculation of Consolidated AFFO.

#### HISTORICAL SUPPLEMENTAL DETAILS

#### **CAPITAL EXPENDITURE TYPES**

#### Cash Flow Generating Capital Expenditures:

Discretionary Capital Projects: capital spending primarily on the construction of new sites, new ground-up data center facilities and expansion within existing data centers, including power installations and customer specific space fit-outs, data center deferred expansion capital that may be required to support existing or future customer utilization, the installation of shared generators, finance leases and other capital projects.

Ground Lease Purchases: capital spending to purchase land underneath communications infrastructure assets, including payments on perpetual land lease easements reported in the cash flows from financing activities in our condensed consolidated statements of cash flows. Also includes acquisition of buildings to reduce lease payments.

Start-Up Capital Projects: expenditures that are specific to acquisitions and new market launches and that are contemplated in the business cases for these investments.

Redevelopment: capital spending to increase capacity of tower sites, including height extension, foundation strengthening, extension of ground space, etc., which results in new incremental tenant revenue.

#### Non-Cash Flow Generating Capital Expenditures:

Capital Improvements: capital spending to maintain the tower site, including lighting system and fence repair, ground upkeep, etc., and capital to upgrade or extend the useful life of existing data centers, including recurring maintenance capital and equipment upgrades to existing office and light-industrial spaces, and non-recurring investments including upgrades to existing data centers that are ancillary to revenue generation (e.g. lobby remodels; company-wide branding). Figures include finance and capital lease payments reported in the cash flows from financing activities in our condensed consolidated statements of cash flows.

Corporate: capital spending primarily on IT infrastructure and system-wide security upgrades.

- (1) Reflects cash received for capital contributions and prepayments associated with long-term tenant agreements and amortization of GAAP revenue associated with the agreements corresponding to such capital contributions or prepayments.
- (2) Excludes the impacts of decommissioning revenues and termination fees.
- (3) Beginning balance adjusted to include pre-paid rent balances related to the acquisition of InSite Wireless Group, LLC (the "InSite Acquisition") that were excluded in Q4 2020.
- (4) Q2 2022 cash includes a year-to-date adjustment associated with previously reported Q1 cash reporting in the U.S. & Canada.
- (5) Includes the impact of fluctuations in foreign currency exchange rates.
- (6) Includes bad debt expenses in multiple periods.
- (7) Presented as reported. Differs from pass-through revenue presented on top portion of tear sheets, which is presented on an FX-neutral basis.

#### ILLUSTRATIVE PROJECTIONS AND OUTLOOK SENSITIVITY ANALYSIS

(\$ in millions, totals may not add due to rounding.)

Straight-Line Revenue Projections <sup>(1)</sup>	2022	2023	2024	2025	2026	
U.S. & Canada Property	\$406	\$300	\$187	\$36	(\$85)	
International Property	18	(0)	(18)	(33)	(33)	
Data Centers	20	4	(1)	(3)	(2)	
Total	\$444	\$304	\$169	(\$0)	(\$121)	
Minimum Non-Cancellable Revenue Projections <sup>(2)(3)(4)(5)</sup>	Remaining portion of 2022	2023	2024	2025	2026 & Thereafter	Total
Total	\$3,333	\$7,236	\$6,964	\$6,443	\$36,034	\$60,010
Minimum Non-Cancellable Ground Lease Commitments <sup>(2)(3)(5)</sup>	Remaining portion of 2022	2023	2024	2025	2026 & Thereafter	Total
Total	\$563	\$1,088	\$1,043	\$983	\$8,013	\$11,689
Estimated impact to 2022 Outlook from fluctuation of the following items:		Total Property Revenue	Adjusted EBITDA	Consolidated AFFO		

(1) These projections assume a status quo scenario under which no lease extensions occur over the indicated time period(s). The projections are likely to change materially if lease extensions do occur.

\$ 110 to 125

\$ 55 to 70

45 to 55

5 to 10

- (2) Amounts do not include escalations based on local Consumer Price Indices.
- (3) Translated at foreign currency exchange rates as of June 30, 2022.

5% fluctuation in foreign currency exchange rates (6)(7)

- (4) Amounts do not include new agreements or extensions signed after June 30, 2022.
- (5) Reflects undiscounted future commitments.

0.25% fluctuation in LIBOR(8)

- (6) The Company's outlook is based on the following average foreign currency exchange rates to 1.00 U.S. Dollar for July 28, 2022 through December 31, 2022: (a) 148 Argentinean Pesos; (b) 1.46 Australian Dollars; (c) 94.00 Bangladeshi Taka; (d) 5.40 Brazilian Reais; (e) 1.30 Canadian Dollars; (f) 945 Chilean Pesos; (g) 4,300 Colombian Pesos; (h) 0.98 Euros; (i) 8.15 Ghanaian Cedis; (j) 79.60 Indian Rupees; (k) 119 Kenyan Shillings; (l) 20.40 Mexican Pesos; (m) 415 Nigerian Naira; (n) 6,930 Paraguayan Guarani; (o) 3.90 Peruvian Soles; (p) 55.80 Philippine Pesos; (q) 4.65 Polish Zloty; (r) 16.80 South African Rand; (s) 3,780 Ugandan Shillings; and (t) 640 West African CFA Francs.
- (7) Appreciation of U.S. dollar relative to other currencies would result in negative impact to property revenue, Adjusted EBITDA and Consolidated AFFO, while a weaker U.S. dollar would result in a positive impact. Impact to net income is not provided, as this cannot be calculated without unreasonable effort.
- (8) An increase in the London Interbank Offered Rate (LIBOR) would result in lower Consolidated AFFO while a decrease in LIBOR would result in higher Consolidated AFFO.

# REGIONAL TEAR SHEETS

#### SEGMENT DISCLOSURES

#### (\$ in millions. Totals may not add due to rounding)

During the fourth quarter of 2021, as a result of the acquisition of CoreSite Realty Corporation (the "CoreSite Acquisition"), the Company updated its reportable segments to add a Data Centers segment. The Data Centers segment is within its property operations. The Company now reports its results in seven segments—U.S. & Canada property (which includes all assets in the United States and Canada, other than the Company's data center facilities and related assets), Asia-Pacific property, Larica property, Europe property, Larica property, Data Centers and Services. The Company believes this change provides greater visibility in one is operating segments and aligns its reporting with managements and aligns its reporting with managements and aligns its proporting with managements and aligns of allocating costs and resources, managing growth and profitability and assessing the operating performance of its business segments. This change applies to its business segments for any prior year periods. Historical financial information prior to 2021 has not been adjusted to reflect the change in reportable segments.

<sup>(1)</sup> Prior to Q4 2021, the Company had one data center, and as such amounts were insignificant, operating metrics have not been presented.

<sup>(2)</sup> Data Centers property revenue reflects revenue from the Company's recently acquired CoreSite data center assets, along with revenue from its legacy owned data center facilities.

<sup>(3)</sup> Rental, power, related and other revenue includes data center rental, power, customer reimbursement, and other revenue, and office, light-industrial and other revenue.

<sup>(1)</sup> Pro forma for (i) anticipated proceeds from the Company's agreement with Stonepeak, which are expected to be used to repay existing indebtedness under the Company's revolving credit facilities and/or term loans and (ii) financing activities subsequent to quarter end.

<sup>(2)</sup> Excludes approximately \$30 million of finance lease obligations and \$6 million of subsidiary and international debt.

<sup>(3)</sup> Outstanding amounts under the Company's long-term obligations reflect discounts, premiums, issuance costs and fair value adjustments, due to interest rate swaps.

<sup>(4)</sup> Accrues interest at a variable rate.

<sup>(5)</sup> As of June 30, 2022 reflects borrowings denominated in Euros ("EUR") and, for the 2021 Multicurrency Credit Facility, reflects borrowings denominated in both EUR and U.S. Dollars.

<sup>(6)</sup> Maturity date reflects the anticipated repayment date; final legal maturity is March 15, 2048.

<sup>(7)</sup> Maturity date reflects the anticipated repayment date; final legal maturity is June 15, 2050.

# **APPENDIX**

## **APPENDIX - DEFINITIONS**

#### Non-GAAP and Defined Financial Measures:

In addition to the results prepared in accordance with generally accepted accounting principles in the United States (GAAP) provided throughout this document, the Company has presented the following Non-GAAP and Defined Financial Measures: Gross Margin, Operating Profit, Operating Profit Margin, Adjusted EBITDA, Adjusted EBITDA Margin, NAREIT Funds From Operations (FFO) attributable to American Tower Corporation common stockholders, Consolidated Adjusted Funds From Operations (AFFO), AFFO attributable to American Tower Corporation common stockholders, Consolidated AFFO per Share, AFFO attributable to American Tower Corporation common stockholders per Share, Free Cash Flow, Net Debt, and Net Leverage Ratio. In addition, the Company presents: Tenant Billings, Tenant Billings Growth, Organic Tenant Billings Growth and New Site Tenant Billings Growth.

These measures are not intended to replace financial performance measures determined in accordance with GAAP. Rather, they are presented as additional information because management believes they are useful indicators of the current financial performance of the Company's core businesses and are commonly used across its industry peer group. As outlined in detail below, the Company believes that these measures can assist in comparing company performance on a consistent basis irrespective of depreciation and amortization or capital structure, while also providing valuable incremental insight into the underlying operating trends of its business.

Depreciation and amortization can vary significantly among companies depending on accounting methods, particularly where acquisitions or non-operating factors, including historical cost basis, are involved. The Company's Non-GAAP and Defined Financial measures may not be comparable to similarly titled measures used by other companies.

#### Revenue components:

In addition to reporting total revenue, the Company believes that providing transparency around the components of its revenue provides investors with insight into the indicators of the underlying demand for, and operating performance of, its real estate portfolio. Accordingly, the Company has provided disclosure of the following revenue components: (i) Tenant Billings, (ii) New Site Tenant Billings; (iii) Organic Tenant Billings; (iv) International pass-through revenue; (vi) Straight-line revenue; (vii) Pre-paid amortization revenue; (viii) Foreign currency exchange impact; and (viii) Other revenue.

Tenant Billings: The majority of the Company's revenue is generated from non-cancellable, long-term tenant leases. Revenue from Tenant Billings reflects several key aspects of the Company's real estate business: (i) "colocations/amendments" reflects new tenant leases for space on existing sites and amendments to existing leases to add additional tenant equipment; (ii) "escalations" reflects contractual increases in billing rates, which are typically tied to fixed percentages or a variable percentage based on a consumer price index; (iii) "cancellations" reflects the impact of tenant lease terminations or non-renewals or, in limited circumstances, when the lease rates on existing leases are reduced; and (iv) "new sites" reflects the impact of new property construction and acquisitions.

New Site Tenant Billings: Day-one Tenant Billings associated with sites that have been built or acquired since the beginning of the prior-year period. Incremental colocations/amendments, escalations or cancellations that occur on these sites after the date of their addition to our portfolio are not included in New Site Tenant Billings. The Company believes providing New Site Tenant Billings enhances an investor's ability to analyze the Company's existing real estate portfolio growth as well as its development program growth, as the Company's construction and acquisition activities can drive variability in growth rates from period to period.

Organic Tenant Billings: Tenant Billings on sites that the Company has owned since the beginning of the prior-year period, as well as Tenant Billings activity on new sites that occurred after the date of their addition to the Company's portfolio.

International pass-through revenue: A portion of the Company's pass-through revenue is based on power and fuel expense reimbursements and therefore subject to fluctuations in fuel prices. As a result, revenue growth rates may fluctuate depending on the market price for fuel in any given period, which is not representative of the Company's real estate business and its economic exposure to power and fuel costs. Furthermore, this expense reimbursement mitigates the economic impact associated with fluctuations in operating expenses, such as power and fuel costs and land rents in certain of the Company's markets. As a result, the Company believes that it is appropriate to provide insight into the impact of pass-through revenue or certain revenue growth rates.

Straight-line revenue: Under GAAP, the Company recognizes revenue on a straight-line basis over the term of the contract for certain of its tenant leases. Due to the Company's significant base of non-cancellable, long-term tenant leases, this can result in significant fluctuations in growth rates upon tenant lease signings and renewals (typically increases), when amounts billed or received upfront upon these events are initially deferred. These signings and renewals are only a portion of the Company's underlying business growth and can distort the underlying performance of our Tenant Billings Growth. As a result, the Company believes that it is appropriate to provide insight into the impact of straight-line revenue on certain growth rates in revenue and select other measures.

Pre-paid amortization revenue: The Company recovers a portion of the costs it incurs for the redevelopment and development of its properties from its tenants. These upfront payments are then amortized over the initial term of the corresponding tenant lease. Given this amortization is not necessarily directly representative of underlying leasing activity on its real estate portfolio (i.e.: does not have a renewal option or escalation as our tenant leases do), the Company believes that it is appropriate to provide insight into the impact of pre-paid amortization revenue on certain revenue growth rates to provide transparency into the underlying performance of our real estate business.

Foreign currency exchange impact: The majority of the Company's international revenue and operating expenses are denominated in each country's local currency. As a result, foreign currency fluctuations may distort the underlying performance of our real estate business from period to period, depending on the movement of foreign currency exchange rates versus the U.S. Dollar. The Company believes it is appropriate to quantify the impact of foreign currency exchange rate fluctuations on its reported growth to provide transparency into the underlying performance of its real estate business.

Other Revenue: Other revenue represents revenue not captured by the above listed items and can include items such as customer settlements and fiber solutions revenue.

#### Non-GAAP and Defined Financial Measure Definitions:

Tenant Billings Growth: The increase or decrease resulting from a comparison of Tenant Billings for a current period with Tenant Billings for the corresponding prior-year period, in each case adjusted for foreign currency exchange rate fluctuations. The Company believes this measure provides valuable insight into the growth in recurring Tenant Billings and underlying demand for its real estate portfolio.

Organic Tenant Billings Growth: The portion of Tenant Billings Growth attributable to Organic Tenant Billings. The Company believes that organic growth is a useful measure of its ability to add tenancy and incremental revenue to its assets for the reported period, which enables investors and analysts to gain additional insight into the relative attractiveness, and therefore the value, of the Company's property assets.

New Site Tenant Billings Growth: The portion of Tenant Billings Growth attributable to New Site Tenant Billings. The Company believes this measure provides valuable insight into the growth attributable to Tenant Billings from recently acquired or constructed properties.

Gross Margin: Revenues less operating expenses, excluding depreciation, amortization and accretion, selling, general, administrative and development expense and other operating expenses. Prior to the first quarter of 2021, stock-based compensation expense recorded in costs of operations was also excluded. The Company believes this measure provides valuable insight into the site-level profitability of its assets.

Operating Profit: Gross Margin less selling, general, administrative and development expense, excluding stock-based compensation expense and corporate expenses. The Company believes this measure provides valuable insight into the site-level profitability of its assets while also taking into account the overhead expenses required to manage each of its operating segments.

Operating Profit and Gross Margin are before interest income, interest expense, gain (loss) on retirement of long-term obligations, other income (expense), net income (loss) attributable to noncontrolling interest and income tax benefit (provision).

Operating Profit Margin: The percentage that results from dividing Operating Profit by revenue.

Adjusted EBITDA: Net income before income (loss) from equity method investments, income tax benefit (provision), other income (expense), gain (loss) on retirement of long-term obligations, interest expense, interest income, other operating income (expense), depreciation, amortization and accretion and stock-based compensation expense. The Company believes this measure provides valuable insight into the profitability of its operations while at the same time taking into account the central overhead expenses required to manage its global operations. In addition, it is a widely used performance measure across the telecommunications real estate sector.

Adjusted EBITDA Margin: The percentage that results from dividing Adjusted EBITDA by total revenue.

Nareit Funds From Operations (FFO), as defined by the National Association of Real Estate Investment Trusts (Nareit), attributable to American Tower Corporation common stockholders: Net income before gains or losses from the sale or disposal of real estate, real estate related impairment charges, real estate related depreciation, amortization and accretion and dividends on preferred stock, and including adjustments for (i) unconsolidated affiliates and (ii) noncontrolling interests. The Company believes this measure provides valuable insight into the operating performance of its property assets by excluding the charges described above, particularly depreciation expenses, given the high initial, up-front capital intensity of the Company's operating model. In addition, it is a widely used performance measure across the telecommunications real estate sector.

Consolidated Adjusted Funds From Operations (AFFO): Nareit FFO attributable to American Tower Corporation common stockholders before (i) straight-line revenue and expense, (ii) stock-based compensation expense, (iii) the deferred portion of income tax and other income tax adjustments, (iv) non-real estate related depreciation, amortization and accretion, (v) amortization of deferred financing costs, capitalized interest, debt discounts and premiums and long-term deferred interest charges, (vi) other income (expense), (vii) gain (loss) on retirement of long-term obligations, (viii) other operating income (expense), and adjustments for (ix) unconsolidated affiliates and (x) noncontrolling interests, less cash payments related to capital improvements and cash payments related to corporate capital expenditures. The Company believes this measure provides valuable insight into the operating performance of its property assets by further adjusting the Nareit FFO attributable to American Tower Corporation common stockholders metric to exclude the factors outlined above, which if unadjusted, may cause material fluctuations in Nareit FFO attributable to American Tower Corporation common stockholders metric to exclude the factors outlined above, which if unadjusted, may cause material fluctuations in Nareit FFO attributable to American Tower Corporation common stockholders growth from period to period that would not be representative of the underlying performance of the Company's property assets in those periods. In addition, it is a widely used performance measure across the telecommunications real estate sector.

Adjusted Funds From Operations (AFFO) attributable to American Tower Corporation common stockholders: Consolidated AFFO, excluding the impact of noncontrolling interests on both Nareit FFO attributable to American Tower Corporation common stockholders and the other line items included in the calculation of Consolidated AFFO. The Company believes that providing this additional metric enhances transparency, given the minority interests in its Indian and European businesses.

Consolidated AFFO per Share: Consolidated AFFO divided by the diluted weighted average common shares outstanding.

AFFO attributable to AMT common stockholders per share: AFFO attributable to American Tower Corporation common stockholders divided by the diluted weighted average common shares outstanding.

Free Cash Flow: Cash provided by operating activities less total cash capital expenditures, including payments on finance leases and perpetual land easements. For periods prior to the first quarter of 2019, total capital expenditures includes payments on capital leases of property and equipment. The Company believes that Free Cash Flow is useful to investors as the basis for comparing our performance and coverage ratios with other companies in its industry, although this measure of Free Cash Flow may not be directly comparable to similar measures used by other companies.

Net Debt: Total long-term debt, including current portion and finance lease liabilities, less cash and cash equivalents.

Net Leverage Ratio: Net Debt divided by the quarter's annualized Adjusted EBITDA (the quarter's Adjusted EBITDA multiplied by four). The Company believes that including this calculation is important for investors and analysts given it is a critical component underlying its credit agency ratings.

Net Rentable Square Feet (NRSF): Data center NRSF includes a factor based on management's estimate of space to account for a customer's proportionate share of the required data center support space (such as the mechanical, telecommunications and utility rooms) and building common areas, which may be updated on a periodic basis to reflect the most current build-out of the Company's properties.

NRSF Under Construction: Represents NRSF for which substantial activities are ongoing to prepare the property for its intended use following development. The NRSF reflects management's estimate of engineering drawings and required support space and is subject to change based on final demising of space. Turn-key data center estimated development costs include two components: 1) general construction to ready the NRSF as data center space and 2) power, cooling and other infrastructure to provide the designed amount of power capacity for the project. Following development completion, incremental capital, referred to as Deferred Expansion Capital, may be invested to support existing or anticipated future customer utilization of NRSF within the Company's operating data centers.

Megawatts (MW) Under Construction: Represents MW for which substantial activities are ongoing to prepare the property for its intended use following development.

NRSF Held for Future Development: Represents incremental data center capacity that may be constructed in existing facilities that requires significant capital investment in order to develop new data center facilities. The estimates are based on current construction plans and expectations regarding entitlements, and they are subject to change based on current economic conditions, final zoning approvals, and the supply and demand of the market. The estimated NRSF for new development projects is based on the entire building size. NRSF placed into service may change depending on the final construction and utilization of the built space.

MW Held for Future Development: Represents incremental data center power capacity that may be provided in existing facilities that requires significant capital investment in order to develop new data center facilities. The estimates are based on current construction plans and expectations regarding entitlements, and they are subject to change based on current economic conditions, final zoning approvals, and the supply and demand of the market. The estimated MW for new development projects is based on the entire building size. MW placed into service may change depending on the final construction and utilization of the built space.

Stabilized and Pre-Stabilized: Data center facilities that recently have been developed and are in the initial lease-up phase are classified as pre-stabilized until they reach 85% occupancy or have been in service for 24 months. Pre-stabilized projects and facilities become stabilized operating properties at the earlier of achieve of 85% occupancy or 24 months after development completion and are included in the stabilized occupancy.

Occupancy Percentage: Includes customer leases that have commenced as of current period.

Percentage Leased: Represents the percentage occupied if all leases signed during the current and prior periods had commenced.

Monthly Recurring Revenue per Cabinet Equivalent Billed: Represents the same-store turn-key monthly recurring colocation revenue ("MRR") per cabinet equivalent billed. We define MRR as recurring contractual revenue, including rental, power, and interconnection revenue and operating expense reimbursement, under existing commenced customer leases. MRR per cabinet equivalent is calculated as (current quarter MRR/3) divided by average monthly billed cabinet equivalents. Cabinet equivalents are calculated as cage-usable square feet (turn-key leased NRSF/NRSF factor) divided by 25.

Turn-Key Same-Store: Includes turn-key data center space that was leased or available to be leased to our colocation customers as of December 31, 2020, at each of our properties, and excludes powered shell data center space, office and light industrial space and space for which development was completed and became available to be leased after December 31, 2020. The turn-key same-store space as of December 31, 2020, is 2,598,776 NRSF. We track same-store on a computer room basis within each data center facility.

## **RISK FACTORS**

#### Cautionary Language Regarding Forward-Looking Statements:

This document contains "forward-looking statements" concerning our goals, beliefs, expectations, strategies, objectives, plans, future operating results and underlying assumptions and other statements that are not necessarily based on historical facts. Examples of these statements include, but are not limited to, statements regarding our full year 2022 outlook and other targets, foreign currency exchange rates, our expectations for the closing of signed acquisitions and signed partnership agreements, our expectations for the financing of our acquisitions, including the CoreSite Acquisition, our expectations for the proposed closing of the transaction with Stonepeak, including the ability to satisfy the closing conditions, our expectations regarding the potential impacts of the Adjusted Gross Revenue court ruling in India and factors that could affect such expectations, our expectations regarding the impacts of COVID-19 and actions in response to the pandemic on our business and our operating results and factors that could affect such expectations and our expectations regarding the leasing demand for communications real estate. Actual results may differ materially from those indicated in our forward-looking statements as a result of various important factors, including: (1) a significant decrease in leasing demand for our communications infrastructure would materially and adversely affect our business and operating results, and we cannot control that demand; (2) if our customers consolidate their operations, exit their businesses or share site infrastructure to a significant degree, our growth, revenue and ability to generate positive cash flows could be materially and adversely affected; (3) a substantial portion of our revenue is derived from a small number of customers, and we are sensitive to adverse changes in the creditworthiness and financial strength of our customers; (4) increasing competition within our industry may materially and adversely affect our revenue; (5) our expansion initiatives involve a number of risks and uncertainties, including those related to integrating acquired or leased assets, that could adversely affect our operating results. disrupt our operations or expose us to additional risk; (6) failure to successfully and efficiently integrate and operate acquired data center facilities and related assets, including those acquired through the CoreSite Acquisition, into our operations may adversely affect our business, operations and financial condition; (7) new technologies or changes in our or a customer's business model could make our communications infrastructure leasing business less desirable and result in decreasing revenues and operating results; (8) competition for assets could adversely affect our ability to achieve our return on investment criteria; (9) our leverage and debt service obligations may materially and adversely affect our ability to raise additional financing to fund capital expenditures, future growth and expansion initiatives and to satisfy our distribution requirements; (10) rising inflation may adversely affect us by increasing costs beyond what we can recover through price increases; (11) restrictive covenants in the agreements related to our securitization transactions, our credit facilities and our debt securities could materially and adversely affect our business by limiting flexibility, and we may be prohibited from paying dividends on our common stock, which may jeopardize our qualification for taxation as a REIT; (12) we may be adversely affected by changes in LIBOR reporting practices, the method in which LIBOR is determined or the use of alternative reference rates; (13) our business, and that of our customers, is subject to laws, regulations and administrative and judicial decisions, and changes thereto, that could restrict our ability to operate our business as we currently do or impact our competitive landscape; (14) our foreign operations are subject to economic, political and other risks that could materially and adversely affect our revenues or financial position, including risks associated with fluctuations in foreign currency exchange rates; (15) if we fail to remain qualified for taxation as a REIT, we will be subject to tax at corporate income tax rates, which may substantially reduce funds otherwise available, and even if we qualify for taxation as a REIT, we may face tax liabilities that impact earnings and available cash flow; (16) complying with REIT requirements may limit our flexibility or cause us to forego otherwise attractive opportunities; (17) we could have liability under environmental and occupational safety and health laws; (18) our towers, fiber networks, data centers or computer systems may be affected by natural disasters (including as a result of climate change) and other unforeseen events for which our insurance may not provide adequate coverage or result in increased insurance premiums; (19) if we, or third parties on which we rely, experience technology failures, including cybersecurity incidents or the loss of personally identifiable information, we may incur substantial costs and suffer other negative consequences, which may include reputational damage; (20) our costs could increase and our revenues could decrease due to perceived health risks from radio emissions, especially if these perceived risks are substantiated; (21) if we are unable to protect our rights to the land under our towers and buildings in which our data centers are located, it could adversely affect our business and operating results; and (22) if we are unable or choose not to exercise our rights to purchase towers that are subject to lease and sublease agreements at the end of the applicable period, our cash flows derived from those towers will be eliminated. For additional information regarding factors that may cause actual results to differ materially from those indicated in our forward-looking statements, we refer you to the information provided in Item 1A of our Form 10-K for the year ended December 31, 2021, under the caption "Risk Factors." We undertake no obligation to update the information contained in this press release to reflect subsequently occurring events or circumstances.
