"Safe Harbor" Statement under the Private Securities Litigation Reform Act of 1995:

This supplemental disclosure package contains forward-looking statements within the meaning of federal securities laws concerning our goals, beliefs, strategies, future operating results and underlying assumptions and other statements that do not relate to historical matters. Examples of these statements include, but are not limited to, statements regarding our full year 2021 outlook and other targets, foreign currency exchange rates and our expectations regarding the leasing demand for communications real estate. Actual results may differ materially from those indicated by these forward-looking statements as a result of various important factors, including those described in Item 1A of our Form 10-K for the year ended December 31, 2020 under the caption "Risk Factors," and other filings we make with the Securities and Exchange Commission. We undertake no obligation to update the information contained in this supplemental disclosure package to reflect subsequently occurring events or circumstances. Definitions and reconciliations are provided in this supplemental disclosure package.

DIVIDEND POLICY

As a real estate investment trust for U.S. federal income tax purposes ("REIT"), we must annually distribute to our stockholders an amount equal to at least 90% of our REIT taxable income (determined before the deduction for distributed earnings and excluding any capital gain). Generally, we have distributed, and expect to continue to distribute, all or substantially all of our REIT taxable income after taking into consideration our utilization of net operating losses ("NOLs"). We have distributed an aggregate of nearly \$10.5 billion(1) to our common stockholders, including the dividend paid on July 9, 2021. These distributions are primarily taxed as ordinary income that may be treated as qualified REIT dividends under Section 199A of the Internal Revenue Code of 1986, as amended, for taxable years ending before 2026.

The amount, timing and frequency of distributions will be at the sole discretion of our Board of Directors and will depend on various factors, many of which are beyond our control, including: our financial condition and operating cash flows; the amount of the distributions required to maintain our qualification for taxation as a REIT and reduce any income and excise taxes that we otherwise would be required to pay; limitations on distributions in our existing and future debt and equity instruments; our ability to utilize NOLs to offset our distribution requirements; limitations on our ability to fund distributions using cash generated through our taxable REIT subsidiaries; and other factors that our Board of Directors may deem relevant.

We anticipate that distributions will generally be paid from cash from operations after debt service requirements and non-discretionary capital expenditures. For information regarding risk factors that could materially adversely affect our ability to fund our distributions and our actual results of operations, please see Item 1A entitled "Risk Factors" in our Form 10-K for the year ended December 31, 2020.

COMPANY & PORTFOLIO OVERVIEW

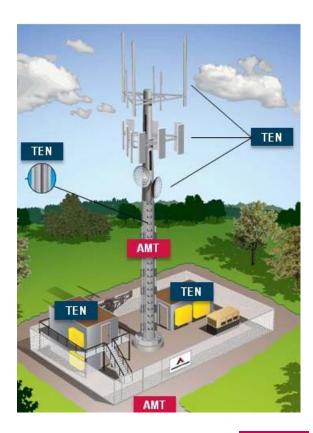

COMPANY PROFILE

American Tower Corporation owns and operates a portfolio of over 214,000 communications sites, which we lease to wireless service providers, broadcasters and other communication service providers. As of June 30, 2021, our portfolio included more than 43,000 properties in the United States & Canada and more than 171,000 properties in our international markets. Over 97% of our total revenue for the three months ended June 30, 2021 was generated from leasing these properties, as well as fiber and other urban telecommunications assets, to our tenants.

As illustrated to the right, our tenants typically own, operate and maintain their antenna, backhaul and base station equipment on our properties, while we provide the real estate, including the tower structure, to support them. For additional information, please visit our website at www.americantower.com.

Historically, our business has generated consistent incremental growth in revenue and cash flows due to the following characteristics:

- Long-term tenant leases with contractual rent escalations. In general, our tenant leases have an initial non-cancellable term of five to ten years with multiple renewal terms. Most of our tenant leases have provisions that periodically increase the rent due under the lease, typically annually, based on a fixed escalation percentage (averaging approximately 3% in the United States) or an inflation index in our international markets, or a combination of both.
- High lease renewal rates. Our tenants tend to renew their leases because suitable alternative sites may not exist or be available. In addition, repositioning a site in a tenant's network may be expensive and may affect its network quality.
- High operating margins. The incremental operating costs associated with adding tenants to one of our properties are relatively minimal. Therefore, as additional tenants are added, the substantial majority of incremental revenue flows through to Operating Profit.
- **Low maintenance capital expenditures.** On average, we require relatively low amounts of annual capital expenditures to maintain our communications properties.
- Growth opportunities. Our portfolio of communications properties provides us with organic growth potential because we have the capacity to add new tenants and new equipment for existing tenants on our sites.

⁽¹⁾ Reflects the impacts of the Company's settlement with Tata Teleservices Limited and related entities (collectively, "Tata"), including a positive impact to revenue of approximately \$334 million, which will not recur in future periods.

^{(2) 2018} results include a total of approximately \$394 million in impairment charges, reflected in the "Other operating expenses" line, primarily associated with assets in India. These charges were partially offset by certain tax benefits, also primarily in India, throughout the year. The net impact of these items attributable to AMT common stockholders is approximately \$177 million for the full year 2018.

⁽³⁾ Full year 2018 results include approximately \$327 million attributable to the Company's settlement with Tata, which will not recur in future periods.

⁽⁴⁾ Includes bad debt expenses in India in multiple periods.

⁽⁵⁾ Q4 2020 and full year 2020 results include the impacts of impairment charges of approximately \$181 million and \$223 million, respectively.

- (1) Reflects the negative impacts of ICCC and the positive impacts of the Company's settlement with Tata.
- (2) Nareit stands for National Association of Real Estate Investment Trusts, while FFO stands for Funds From Operations.
- (3) In Q2 2019, the Company made a capitalized interest payment of approximately \$14.2 million associated with the purchase of the shareholder loan previously held by its joint venture partner in Ghana. In Q1 2020, the Company made a capitalized interest payment of approximately \$63.3 million associated with the acquisition of MTN Group Limited's redeemable noncontrolling interests in each of its joint ventures in Ghana and Uganda. In each case, the deferred interest was previously expensed but excluded from Consolidated AFFO.
- (4) Primarily includes unrealized (gain) loss on foreign currency exchange rate fluctuations.
- (5) Primarily includes acquisition-related costs, integration costs, losses from sale of assets and impairment charges.
- (6) Includes adjustments for the impact on both Nareit FFO attributable to American Tower Corporation common stockholders as well as the other line items included in the calculation of Consolidated AFFO. Definitions are provided at the end of this document.

HISTORICAL RECONCILIATIONS - Indian Carrier Consolidation-Driven Churn and Tata Settlement

(\$ in millions, except per share data. Totals may not add due to rounding.)

The Company's operational and financial results in prior periods have been impacted by churn driven by carrier consolidation in India (Indian Carrier Consolidation-Driven Churn, "ICCC"), as well as the Company's settlement with Tata. We are disclosing the additional financial metrics below to provide insight into the underlying long-term trends across the Company's business excluding these impacts. The impacts of ICCC and the Tata settlement on net income are not provided, as the impact on all components of the net income measure cannot be reasonably calculated.

HISTORICAL SUPPLEMENTAL DETAILS

CAPITAL EXPENDITURE TYPES

Cash Flow Generating Capital Expenditures:

Discretionary Capital Projects: capital spending primarily on the construction of new sites, the installation of shared generators, finance leases and other capital projects.

Ground Lease Purchases: capital spending to purchase land underneath communications sites, including payments on perpetual land lease easements reported in the cash flows from financing activities in our condensed consolidated statements of cash flows. Also includes acquisition of buildings to reduce lease payments.

Start-Up Capital Projects: expenditures that are specific to acquisitions and new market launches and that are contemplated in the business cases for these investments.

Redevelopment: capital spending to increase capacity of tower sites, including height extension, foundation strengthening, extension of ground space, etc. which results in new incremental tenant revenue.

Non-Cash Flow Generating Capital Expenditures:

Capital Improvements: capital spending to maintain the tower site, including lighting system and fence repair, ground upkeep, etc. Figures include finance and capital lease payments reported in the cash flows from financing activities in our condensed consolidated statements of cash flows.

Corporate: capital spending primarily on IT infrastructure.

- (1) These projections assume a status quo scenario under which no lease extensions occur over the indicated time period(s). The projections are likely to change materially if lease extensions do occur.
- (2) Reflects incremental straight-line revenue as a result of the recent master lease agreement with T-Mobile US, Inc.
- (3) Amounts do not include escalations based on local Consumer Price Indices.
- (4) Translated at foreign currency exchange rates as of June 30, 2021.
- (5) Amounts do not include new agreements or extensions signed after June 30, 2021.
- (6) Reflects undiscounted future commitments.
- (7) The Company's outlook is based on the following average foreign currency exchange rates to 1.00 U.S. Dollar for July 29, 2021 through December 31, 2021: (a) 105 Argentinean Pesos; (b) 1.32 Australian Dollars (c) 5.30 Brazilian Reais; (d) 1.23 Canadian Dollars (e) 735 Chilean Pesos; (f) 3,740 Colombian Pesos; (g) 0.84 Euros; (h) 5.90 Ghanaian Cedis; (i) 74.00 Indian Rupees; (j) 109 Kenyan Shillings; (k) 20.00 Mexican Pesos; (l) 415 Nigerian Naira; (m) 6,760 Paraguayan Guarani; (n) 3.95 Peruvian Soles; (o) 48.70 Philippine Pesos; (p) 3.80 Polish Zloty; (q) 14.50 South African Rand; (r) 3,550 Ugandan Shillings; and (s) 550 West African CFA Francs.
- (8) Appreciation of U.S. dollar relative to other currencies would result in negative impact to property revenue, Adjusted EBITDA and Consolidated AFFO, while a weaker U.S. dollar would result in a positive impact. Impact to net income is not provided, as this cannot be calculated without unreasonable effort.
- (9) An increase in the London Interbank Offered Rate (LIBOR) would result in lower Consolidated AFFO while a decrease in LIBOR would result in higher Consolidated AFFO.

⁽¹⁾ Includes contributions from land acquired in Australia as a result of the InSite Acquisition, which closed on December 23, 2020.

Countries Included: Australia, India and the Philippines

⁽²⁾ Includes net positive impacts to property revenue, gross margin and operating profit of \$334 million, \$334 million, respectively, related to the Company's settlement with Tata. These impacts more than offset the negative impacts of ICC

⁽³⁾ All components of revenue, except those labeled current period, have been translated at prior-period foreign currency exchange rates.

⁽⁴⁾ Reflects foreign currency exchange impact on all components of Total Tenant Billings.

⁽⁵⁾ Reflects foreign currency exchange impact on other components of revenue, other than Total Tenant Billings.

⁽⁶⁾ Includes bad debt expenses in India in multiple periods.

⁽⁷⁾ Regional operating profit includes the allocation of certain regional headquarter SG&A expenses.

⁽⁸⁾ The Company does not expect ICCC to be significant going forward and therefore is no longer providing adjusted metrics.

⁽⁹⁾ Excludes the impacts of the Company's settlement with Tata.

⁽⁶⁾ Maturity date reflects the anticipated repayment date; final legal maturity is June 15, 2050.

APPENDIX

APPENDIX - DEFINITIONS

Non-GAAP and Defined Financial Measures:

In addition to the results prepared in accordance with generally accepted accounting principles in the United States (GAAP) provided throughout this document, the Company has presented the following Non-GAAP and Defined Financial Measures: Gross Margin, Operating Profit, Operating Profit Margin, Adjusted EBITDA, Adjusted EBITDA Margin, NAREIT Funds From Operations (FFO) attributable to American Tower Corporation stockholders, Consolidated Adjusted Funds From Operations (AFFO), AFFO attributable to American Tower Corporation common stockholders, Consolidated AFFO per Share, AFFO attributable to American Tower Corporation common stockholders per Share, Free Cash Flow, Net Debt, Net Leverage Ratio and Indian Carrier Consolidation-Driven Churn (ICCC). In addition, the Company presents: Tenant Billings, Tenant Billings Growth, Organic Tenant Billings Growth, Organic Tenant Billings Growth.

These measures are not intended to replace financial performance measures determined in accordance with GAAP. Rather, they are presented as additional information because management believes they are useful indicators of the current financial performance of the Company's core businesses and are commonly used across its industry peer group. As outlined in detail below, the Company believes that these measures can assist in comparing company performance on a consistent basis irrespective of depreciation and amortization or capital structure, while also providing valuable incremental insight into the underlying operating trends of its business.

Depreciation and amortization can vary significantly among companies depending on accounting methods, particularly where acquisitions or non-operating factors, including historical cost basis, are involved. The Company's Non-GAAP and Defined Financial measures may not be comparable to similarly titled measures used by other companies.

Revenue components:

In addition to reporting total revenue, the Company believes that providing transparency around the components of its revenue provides investors with insight into the indicators of the underlying demand for, and operating performance of, its real estate portfolio. Accordingly, the Company has provided disclosure of the following revenue components: (i) Tenant Billings; (ii) New Site Tenant Billings; (iii) Organic Tenant Billings; (iv) International pass-through revenue; (vi) Straight-line revenue; (vi) Pre-paid amortization revenue; (vii) Foreign currency exchange impact; and (viii) Other revenue.

Tenant Billings: The majority of the Company's revenue is generated from non-cancellable, long-term tenant leases. Revenue from Tenant Billings reflects several key aspects of the Company's real estate business: (i) "colocations/amendments" reflects new tenant leases for space on existing sites and amendments to existing leases to add additional tenant equipment; (ii) "escalations" reflects contractual increases in billing rates, which are typically tied to fixed percentages or a variable percentage based on a consumer price index; (iii) "cancellations" reflects the impact of tenant lease terminations or non-renewals or, in limited circumstances, when the lease rates on existing leases are reduced; and (iv) "new sites" reflects the impact of new property construction and acquisitions.

New Site Tenant Billings: Day-one Tenant Billings associated with sites that have been built or acquired since the beginning of the prior-year period. Incremental colocations/amendments, escalations or cancellations that occur on these sites after the date of their addition to our portfolio are not included in New Site Tenant Billings. The Company believes providing New Site Tenant Billings enhances an investor's ability to analyze the Company's existing real estate portfolio growth as well as its development program growth, as the Company's construction and acquisition activities can drive variability in growth rates from period to period.

Organic Tenant Billings: Tenant Billings on sites that the Company has owned since the beginning of the prior-year period, as well as Tenant Billings activity on new sites that occurred after the date of their addition to the Company's portfolio.

International pass-through revenue: A portion of the Company's pass-through revenue is based on power and fuel expense reimbursements and therefore subject to fluctuations in fuel prices. As a result, revenue growth rates may fluctuate depending on the market price for fuel in any given period, which is not representative of the Company's real estate business and its economic exposure to power and fuel costs. Furthermore, this expense reimbursement mitigates the economic impact associated with fluctuations in operating expenses, such as power and fuel costs and land rents in certain of the Company's markets. As a result, the Company believes that it is appropriate to provide insight into the impact of pass-through revenue on certain revenue growth rates.

Straight-line revenue: Under GAAP, the Company recognizes revenue on a straight-line basis over the term of the contract for certain of its tenant leases. Due to the Company's significant base of non-cancellable, long-term tenant leases, this can result in significant fluctuations in growth rates upon tenant lease signings and renewals (typically increases), when amounts billed or received upfront upon these events are initially deferred. These signings and renewals are only a portion of the Company's underlying business growth and can distort the underlying performance of our Tenant Billings Growth. As a result, the Company believes that it is appropriate to provide insight into the impact of straight-line revenue on certain growth rates in revenue and select other measures.

Pre-paid amortization revenue: The Company recovers a portion of the costs it incurs for the redevelopment and development of its properties from its tenants. These upfront payments are then amortized over the initial term of the corresponding tenant lease. Given this amortization is not necessarily directly representative of underlying leasing activity on its real estate portfolio (i.e.: does not have a renewal option or escalation as our tenant leases do), the Company believes that it is appropriate to provide insight into the impact of pre-paid amortization revenue on certain revenue growth rates to provide transparency into the underlying performance of our real estate business.

Foreign currency exchange impact: The majority of the Company's international revenue and operating expenses are denominated in each country's local currency. As a result, foreign currency fluctuations may distort the underlying performance of our real estate business from period to period, depending on the movement of foreign currency exchange rates versus the U.S. Dollar. The Company believes it is appropriate to quantify the impact of foreign currency exchange rate fluctuations on its reported growth to provide transparency into the underlying performance of its real estate business.

Other Revenue: Other revenue represents revenue not captured by the above listed items and can include items such as tenant settlements and fiber solutions revenue.

Non-GAAP and Defined Financial Measure Definitions:

Tenant Billings Growth: The increase or decrease resulting from a comparison of Tenant Billings for a current period with Tenant Billings for the corresponding prior-year period, in each case adjusted for foreign currency exchange rate fluctuations. The Company believes this measure provides valuable insight into the growth in recurring Tenant Billings and underlying demand for its real estate portfolio.

Organic Tenant Billings Growth: The portion of Tenant Billings Growth attributable to Organic Tenant Billings. The Company believes that organic growth is a useful measure of its ability to add tenancy and incremental revenue to its assets for the reported period, which enables investors and analysts to gain additional insight into the relative attractiveness, and therefore the value, of the Company's property assets.

New Site Tenant Billings Growth: The portion of Tenant Billings Growth attributable to New Site Tenant Billings. The Company believes this measure provides valuable insight into the growth attributable to Tenant Billings from recently acquired or constructed properties.

Indian Carrier Consolidation-Driven Churn (ICCC): Tenant cancellations specifically attributable to short-term carrier consolidation in India. Includes impacts of carrier exits from the marketplace and carrier cancellations as a result of consolidation, but excludes normal course churn. In prior periods, the Company provided this additional metric to enhance transparency and provide a better understanding of its recurring business.

Gross Margin: Revenues less operating expenses, excluding stock-based compensation expense recorded in costs of operations, depreciation, amortization and accretion, selling, general, administrative and development expense and other operating expenses. The Company believes this measure provides valuable insight into the site-level profitability of its assets.

Operating Profit: Gross Margin less selling, general, administrative and development expense, excluding stock-based compensation expense and corporate expenses. The Company believes this measure provides valuable insight into the site-level profitability of its assets while also taking into account the overhead expenses required to manage each of its operating segments.

For segment reporting purposes, in periods through the third quarter of 2018, the Latin America property segment Operating Profit and Gross Margin also include interest income (expense), TV Azteca, net. Operating Profit and Gross Margin are before interest income, interest expense, gain (loss) on retirement of long-term obligations, other income (expense), net income (loss) attributable to noncontrolling interest and income tax benefit (provision).

Operating Profit Margin: The percentage that results from dividing Operating Profit by revenue.

Adjusted EBITDA: Net income before income (loss) from equity method investments, income tax benefit (provision), other income (expense), gain (loss) on retirement of long-term obligations, interest expense, interest income, other operating income (expense), depreciation, amortization and accretion and stock-based compensation expense. The Company believes this measure provides valuable insight into the profitability of its operations while at the same time taking into account the central overhead expenses required to manage its global operations. In addition, it is a widely used performance measure across the telecommunications real estate sector.

Adjusted EBITDA Margin: The percentage that results from dividing Adjusted EBITDA by total revenue.

Nareit Funds From Operations (FFO), as defined by the National Association of Real Estate Investment Trusts (Nareit), attributable to American Tower Corporation common stockholders: Net income before gains or losses from the sale or disposal of real estate, real estate related impairment charges, real estate related depreciation, amortization and accretion and dividends on preferred stock, and including adjustments for (i) unconsolidated affiliates and (ii) noncontrolling interests. The Company believes this measure provides valuable insight into the operating performance of its property assets by excluding the charges described above, particularly depreciation expenses, given the high initial, up-front capital intensity of the Company's operating model. In addition, it is a widely used performance measure across the telecommunications real estate sector.

Consolidated Adjusted Funds From Operations (AFFO): Nareit FFO attributable to American Tower Corporation common stockholders before (i) straight-line revenue and expense, (ii) stock-based compensation expense, (iii) the deferred portion of income tax, (iv) non-real estate related depreciation, amortization and accretion, (v) amortization of deferred financing costs, capitalized interest, debt discounts and premiums and long-term deferred interest charges, (vi) other income (expense), (vii) gain (loss) on retirement of long-term obligations, (viii) other operating income (expense), and adjustments for (ix) unconsolidated affiliates and (x) noncontrolling interests, less cash payments related to capital improvements and cash payments related to corporate capital expenditures. The Company believes this measure provides valuable insight into the operating performance of its property assets by further adjusting the Nareit FFO attributable to American Tower Corporation common stockholders growth from period to period that would not be representative of the underlying performance of the Company's property assets in those periods. In addition, it is a widely used performance measure across the telecommunications real estate sector.

Adjusted Funds From Operations (AFFO) attributable to American Tower Corporation common stockholders: Consolidated AFFO, excluding the impact of noncontrolling interests on both Nareit FFO attributable to American Tower Corporation common stockholders and the other line items included in the calculation of Consolidated AFFO. The Company believes that providing this additional metric enhances transparency, given the minority interests in its Indian and European businesses.

Consolidated AFFO per Share: Consolidated AFFO divided by the diluted weighted average common shares outstanding.

AFFO attributable to AMT common stockholders per share: AFFO attributable to American Tower Corporation common stockholders divided by the diluted weighted average common shares outstanding.

Free Cash Flow: Cash provided by operating activities less total cash capital expenditures, including payments on finance leases and perpetual land easements. For periods prior to the first quarter of 2019, total capital expenditures includes payments on capital leases of property and equipment. The Company believes that Free Cash Flow is useful to investors as the basis for comparing our performance and coverage ratios with other companies in its industry, although this measure of Free Cash Flow may not be directly comparable to similar measures used by other companies.

Net Debt: Total long-term debt, including current portion, less cash and cash equivalents. In periods beginning in the first quarter of 2019, total long-term debt also includes finance lease liabilities.

Net Leverage Ratio: Net Debt divided by the quarter's annualized Adjusted EBITDA (the quarter's Adjusted EBITDA multiplied by four). The Company believes that including this calculation is important for investors and analysts given it is a critical component underlying its credit agency ratings.

RISK FACTORS

Cautionary Language Regarding Forward-Looking Statements:

This document contains "forward-looking statements" concerning our goals, beliefs, expectations, strategies, objectives, plans, future operating results and underlying assumptions and other statements that are not necessarily based on historical facts. Examples of these statements include, but are not limited to, statements regarding our full year 2021 outlook and other targets, foreign currency exchange rates, our expectations for the closing of signed acquisitions, our expectations for the redemption of shares in ATC TIPL, our expectations for the closing of our signed agreements with CDPQ and Allianz, our expectations regarding the potential impacts of the Adjusted Gross Revenue court ruling in India and factors that could affect such expectations, our expectations regarding the impacts of COVID-19 and actions in response to the pandemic on our business and our operating results and factors that could affect such expectations and our expectations regarding the leasing demand for communications real estate. Actual results may differ materially from those indicated in our forwardlooking statements as a result of various important factors, including: (1) a significant decrease in leasing demand for our communications infrastructure would materially and adversely affect our business and operating results, and we cannot control that demand; (2) if our tenants consolidate their operations, exit the telecommunications business or share site infrastructure to a significant degree, our growth, revenue and ability to generate positive cash flows could be materially and adversely affected; (3) a substantial portion of our revenue is derived from a small number of tenants, and we are sensitive to adverse changes in the creditworthiness and financial strength of our tenants; (4) increasing competition within our industry may materially and adversely affect our revenue; (5) our expansion initiatives involve a number of risks and uncertainties, including those related to integrating acquired or leased assets, that could adversely affect our operating results, disrupt our operations or expose us to additional risk; (6) new technologies or changes in our or a tenant's business model could make our tower leasing business less desirable and result in decreasing revenues and operating results; (7) competition for assets could adversely affect our ability to achieve our return on investment criteria; (8) our leverage and debt service obligations may materially and adversely affect our ability to raise additional financing to fund capital expenditures, future growth and expansion initiatives and to satisfy our distribution requirements; (9) restrictive covenants in the agreements related to our securitization transactions, our credit facilities and our debt securities could materially and adversely affect our business by limiting flexibility, and we may be prohibited from paying dividends on our common stock, which may jeopardize our qualification for taxation as a REIT; (10) we may be adversely affected by changes in LIBOR reporting practices, the method in which LIBOR is determined or the use of alternative reference rates; (11) our business, and that of our tenants, is subject to laws, regulations and administrative and judicial decisions, and changes thereto, that could restrict our ability to operate our business as we currently do or impact our competitive landscape; (12) our foreign operations are subject to economic, political and other risks that could materially and adversely affect our revenues or financial position, including risks associated with fluctuations in foreign currency exchange rates; (13) if we fail to remain qualified for taxation as a REIT, we will be subject to tax at corporate income tax rates, which may substantially reduce funds otherwise available, and even if we qualify for taxation as a REIT, we may face tax liabilities that impact earnings and available cash flow; (14) complying with REIT requirements may limit our flexibility or cause us to forego otherwise attractive opportunities; (15) we could have liability under environmental and occupational safety and health laws; (16) our towers, fiber networks, data centers or computer systems may be affected by natural disasters, security breaches and other unforeseen events for which our insurance may not provide adequate coverage; (17) our costs could increase and our revenues could decrease due to perceived health risks from radio emissions, especially if these perceived risks are substantiated; (18) if we are unable to protect our rights to the land under our towers, it could adversely affect our business and operating results; and (19) if we are unable or choose not to exercise our rights to purchase towers that are subject to lease and sublease agreements at the end of the applicable period, our cash flows derived from those towers will be eliminated. For additional information regarding factors that may cause actual results to differ materially from those indicated in our forward-looking statements, we refer you to the information contained in Item 1A of our Form 10-K for the year ended December 31, 2020 under the caption "Risk Factors." We undertake no obligation to update the information contained in this document to reflect subsequently occurring events or circumstances.
